Allowable Subject Matter

1. Claims 1, 3-7, 9 and 10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The examiner finds that the prior art does not disclose the following elements of claim 1 in the context of the claim as a whole;

A method, comprising:
determining, using a computer, for each of at least one private issuer of fixed income securities, **a correlation between inflation and a likelihood that the private issuer will default on the fixed income securities**, wherein the computer comprises a processor and a memory;

entering into, by the trustee on behalf of the trust, an inflation swap agreement with a swap counterparty, wherein the inflation swap agreement obligates the trust to make periodic fixed payments to the swap counterparty in exchange for periodic floating payments from the swap counterparty dependent upon an inflation index; and
issuing, by the trustee on behalf of the trust, inflation-linked securities to investors, wherein the inflation-linked securities comprise a principal amount and an interest rate, and wherein at least one of the principal amount and the interest rate are related to the inflation index, wherein the inflation-linked securities have a second maturity date that matches the first maturity date of the fixed income securities, and **wherein the inflation-linked securities are backed by the fixed income securities** of the selected private issuer so that the investors can own inflation-linked securities backed by fixed income securities of the selected private issuer, without the selected private issuer having to issue the inflation-linked securities.
